

## Cryo-EM analysis of Polζ holoenzyme in complex with a DNA substrate containing an A:C mismatch

Supplementary Figure 1 showing some 2-D classes based on data collected on Krios at SEMC

Some 2-D classes for Polζ in complex with a DNA substrate carrying an A:C mismatch.

Supplementary Figure 2 showing a 3-D reconstruction of the Polζ<sub>A:C</sub> mismatch complex at 3.05Å resolution

Mismatch complex at a nominal resolution of 3.05 Å
