

Feasibility & Data

PI name : Robert Craigie

User name: Min Li

Project name/MW/dimension: Structural Basis of HIV-1 intasome complexed with DTG;

MW: 400kD; dimension 200A

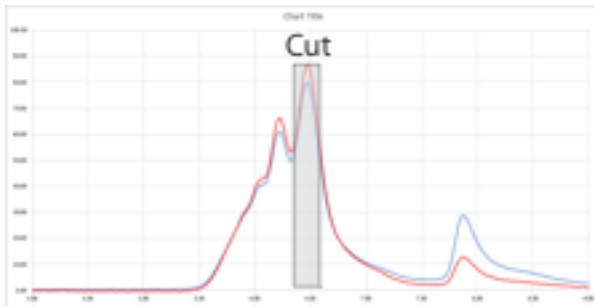

Technique request (check one):

☒ Data collection for high resolution reconstruction

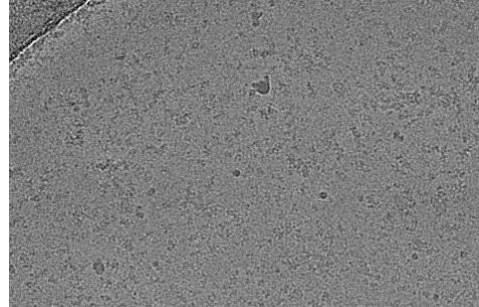

Scope preference

☒ Krios with Energy Filter

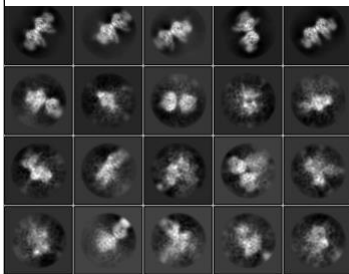

Particle purity (SEC column profile)*

cryo image

2D classes

Preliminary 3D reconstruction, 3 views
