

Lijia Jia

UT Healthy San Antonio, TX

NCCAT-TP1-LJ210701

Lijia Jia is originally from China. He obtained his Ph.D. at the Institute of Genetics and Developmental Biology at the Chinese Academy of Science. His academic field is using structural biology methods, including crystallography and CryoEM, to resolve huge protein complexes. He is currently a senior research scientist at UT Health in San Antonio.

He likes playing basketball, cooking Chinese food and watching movies. Lijia also enjoys hanging out with friends and having picnics. He likes to learn new things from the people he meets and is happy to talk about any topic.
